Johnny then remembered his dance member mark showed him a new app he uses that shows food places with low wait times that are close.

Johnny downloads the app and instantly shows food places that have very low wait times and how close they are from him.

Johnny gets excited and starts driving to the nearest one he finds that only has 5 min wait time!!!

Johnny got his food on perfect time and was elated that he got some, just in time for practice!! Now he has a full stomach and can be on time for practice!

Janine Collins-(by Zaria Mobley)

During her lunch break one day, one of her coworkers told her about the app that she uses all of time called Wait Times.

Janine Collins-(by Zaria Mobley)

Janine had never heard of it before and she was a bit skeptical but she decided to give it try since she was in a bind and didn't have too much to lose.

Janine Collins-(by Zaria Mobley)

For the rest of her lunch break she decided to download the app and check out it's features to see what it was all about. She discovered that it was easy to navigate and that the app had a lot of healthy options for her to choose from.

Before leaving work she decide to check the Wait Times app again and she noticed that there were some restaurants with short wait times and that some of those restaurants prepared healthy food.

Janine Collins-(by Zaria Mobley)

Janine thought that it was too good to be true but she drove to the restaurant anyway. And when she got there she only waited about 8 minutes when the original wait time was 10 minutes!

Janine Collins-(by Zaria Mobley)

The restaurant was close to her home so she got their within minutes. Her family was very happy when she walked in and they all enjoyed their meal together.

After her and her family had their meal together and she made sure that everyone was okay and settled, Janine was able to finish up her projects.

Monique Jones (Hanwa Bakir)

Monique has a very busy schedule and has short lunch breaks before she needs to get back to work. Due to her short lunch breaks, she resorts to eating unhealthy almost everyday!

Her co-worker, Athena, realized that Monique has been looking down lately and her energy levels have gone down too.

Monique vented to Athena about how she is very frustrated with restaurants having very long wait times, she can't afford to have a proper meal and go back to work on time.

Athena then shared with Monique this new app she recently came across that shows all the nearest restaurants as well as their live wait times. She told Monique that it will solve her problems and she will no longer need to eat unhealthy during her lunch breaks again!

Next day, Monique took Athena's advice and decided to give the app a try. She downloaded it during lunch break and she found multiple restaurants that had short wait times. She didn't waste time in choosing one and rushing there to have her proper meal.

In the end, Monique was very pleased with her dine in experience and was glad she downloaded that app! She was able to finish her meal and get back to work on time for her next scheduled appointment.
